

## Lauren Mulligan / professional floor covering designer

As a San Diego native, Lauren's taste for design derives from the sophisticated yet unique atmosphere that this city holds. Whether it's from relaxing under the palms in La Jolla or hitting the trails at Cowles Mountain, Lauren finds inspiration in the beauty of nature.

When designing a home, Lauren loves to play off bold concepts to create an impact in each room. One of her strengths is her natural eye for color and ability to curate. She credits her skill and knowledge to the designers that have guided her throughout the years. Since working with numerous designers in San Diego, Lauren has used each experience as an opportunity to grow as a designer and develop her own personal taste.

***Her mission at Metro is to lead every client on their own design journey and ensure they have found the flooring that works best for their lifestyle. Lauren believes your home should reflect who YOU are. Starting from the ground up, let each piece in your home tell the story of you.***

When she isn't helping you create your dream home, you can find Lauren lounging out at the beach with friends, hiking Mission Trails, or simply snuggled up with her beloved kitty, Mellow.
